

## **LIST OF NONDOMESTIC PRODUCTS**

### **RUS POLICY ON THE FINANCING OF PRODUCTS WHICH HAVE RECEIVED AN RUS LETTER OF TECHNICAL ACCEPTANCE**

Products that do not meet the "Buy American" provision of 1938, as amended, are not included in the RUS List of Materials. Instead these products receive a letter of technical acceptance from RUS and are included on this list for nondomestic products. You may find the "Buy American " provision at [http://www.usda.gov/rus/regs/info/100-1/buy\\_american.htm](http://www.usda.gov/rus/regs/info/100-1/buy_american.htm).

For RUS financing of a product RUS requires that the product complies with the "Buy American" provision and that the product either has been determined acceptable by RUS or has received an RUS letter of technical acceptance. For more information on RUS requirements for product acceptance or technical acceptance see RUS listing procedures at <http://www.usda.gov/rus/telecom/materials/listing/listing.htm>. A product complying with both of the provisions listed below complies with this "Buy American" provision and is considered a domestic product by RUS. If the product does not meet either of the two conditions, the product is then classified as nondomestic for purposes of RUS financing. These conditions are:

- (1) Final assembly or manufacture of the product, as the product would be used by an RUS borrower, is completed in the United States or eligible countries (currently, Mexico, Canada and Israel); and
- (2) The cost of United States and eligible countries' components (in any combination) within the product is more than 50 percent of the total cost of all components utilized in the product. The cost of non-domestic components (components not manufactured within the United States or eligible countries) which are included in the finished product must include all duties, taxes, and delivery charges to the point of assembly/manufacture.

A bid for a nondomestic product is considered to be in compliance with the "Buy American" provision by RUS if the nondomestic bid is lower than the lowest domestic bid by at least six percent of the cost of the material content of the nondomestic bid. This six percent cost differential is added to the nondomestic bid for the purpose of determining the low bid only.

### oc - Fiber Optic Cable

RUS Standard Designations "BFO", "CO", and "UO" (Filled) 7 CFR 1755.900

These manufacturers' cables shown by catalog designations comply with 7 CFR 1755.900

### oc-b Gel-Filled Multiple Loose Tube Fiber Core Construction<sup>(3)</sup>

#### RUS Standard Suffixes

<u>Manufacturer</u>	<u>Cable Construction</u>					<u>Mode</u>	
	<u>E(1)</u>	<u>F(1)</u>	<u>G</u>	<u>H</u>	<u>P(2)</u>	<u>s</u>	<u>m</u>
Samsung <sup>(4)</sup>	SC-LMN/100	SC-LMN/100	-	SC-LMA/100 <sup>(5)</sup>	-	X	-

(Technical Acceptance expires on **10/31/04.**)

#### Suffixes:

- A - Nonarmored with Metallic Strength Members Embedded in Jacket
- B - Nonarmored with Dielectric Strength Members Embedded in Jacket
- C - Armored with Metallic Strength Members Embedded in Jacket
- D - Armored with Dielectric Strength Members Embedded in Jacket
- E - Nonarmored with Metallic Central Strength Member
- F - Nonarmored with Dielectric Central Strength Member
- G - Armored with Metallic Central Strength Member
- H - Armored with Dielectric Central Strength Member
- P - Preconnectorized Cable
- s- Single Mode
- m - Multimode

#### Notes:

- <sup>(1)</sup>Aerial and duct use only.
- <sup>(2)</sup>Replace (X) with the manufacturer's catalog designation shown in the listing for Cable Construction Types E through H.
- <sup>(3)</sup>May contain multiple fibers per tube.
- <sup>(4)</sup>Accepted only for dispersion-unshifted single mode optical fibers.
- <sup>(5)</sup>Single armor, double jacket design only.

### oc - Fiber Optic Cable

RUS Standard Designations "BFO", "CO", and "UO" (Filled) 7 CFR 1755.900

These manufacturers' cables shown by catalog designations comply with 7 CFR 1755.900

### oc-d Dry-Filled Multiple Loose Tube Fiber Core Construction<sup>(3)(4)</sup>

#### RUS Standard Suffixes

<u>Manufacturer</u>	<u>Cable Construction</u>					<u>Mode</u>	
	<u>E(1)</u>	<u>F(1)</u>	<u>G</u>	<u>H</u>	<u>P(2)</u>	<u>s</u>	<u>m</u>
Samsung <sup>(5)</sup>	SC-LMN/200	SC-LMN/200	SC-LMA/200 <sup>(6)</sup>	SC-LMA/200 <sup>(6)</sup>	-	X	-

(Technical Acceptance expires on 10/31/04.)

Taihan <sup>(5)</sup>	-	TEC-DU	-	TEC-DB	-	X	-
-----------------------	---	--------	---	--------	---	---	---

(Technical Acceptance expires on 10/31/04.)

#### Suffixes:

- A - Nonarmored with Metallic Strength Members Embedded in Jacket
- B - Nonarmored with Dielectric Strength Members Embedded in Jacket
- C - Armored with Metallic Strength Members Embedded in Jacket
- D - Armored with Dielectric Strength Members Embedded in Jacket
- E - Nonarmored with Metallic Central Strength Member
- F - Nonarmored with Dielectric Central Strength Member
- G - Armored with Metallic Central Strength Member
- H - Armored with Dielectric Central Strength Member
- P - Preconnectorized Cable
- s - Single Mode
- m - Multimode

#### Notes:

- <sup>(1)</sup>Aerial and duct use only.
- <sup>(2)</sup>Replace (X) with the manufacturer's catalog designation shown in the listing for Cable Construction Types E through H.
- <sup>(3)</sup>May contain multiple fibers per tube.
- <sup>(4)</sup>Cable uses a "Water Blocking Tape" in place of a "Gel Compound" as the filling compound surrounding the multiple loose tube buffers in the cable core.
- <sup>(5)</sup>Accepted only for dispersion-unshifted single mode optical fibers.
- <sup>(6)</sup>Single armor, double jacket design only.

**ae – Access Equipment**

<b><u>Manufacturer</u></b>	<b><u>Product</u></b>	<b><u>Copper</u></b>	<b><u>Fiber</u></b>	<b><u>Wireless</u></b>
Alloptic	GigaForce <sup>(1)</sup>	N	Y	N
(Technical Acceptance expires <b>10/29/04</b> )				

<sup>(1)</sup>Gigabit Ethernet Access Routers (GEAR) includes edgeGEAR, homeGEAR, bizGEAR, and mduGEAR.

<b><u>Manufacturer</u></b>	<b><u>Product</u></b>	<b><u>Copper</u></b>	<b><u>Fiber</u></b>	<b><u>Wireless</u></b>
Alcatel	7340 FTTU System <sup>(1)</sup>	N	Y	N
(Technical Acceptance expires <b>05/27/05.</b> )				

<sup>(1)</sup>The Alcatel 7340 FTTU System includes the 7340 H-ONT Home Optical Network Terminal, the 7340 P-OLT Packet Optical Line Terminal, the 7340 V-OLT Video Optical Line Terminal, and the 7340 AMS Access Management System.
